

Light and Lighting from East to West

International Virtual Conference, March 16-17, 2021

This conference is an International gathering of academics, architects, lighting designers, electrical engineers, students, manufacturers, distributors and those interested in the world of light and lighting .

The unique 2021 virtual conference includes leading speakers from five continents - From East to West.

This conference covers a wide spectrum of topics related to the field of illumination including: engineering, innovation, health and wellbeing, aspects of indoor and outdoor illumination and irradiation influenced by COVID-19.

Tuesday, 16 March 2021 – (Israeli Time)	
Registration and connection to the conference	15:45
Opening Session Conference Chair: Prof. Guedi Capeluto , Technion Dr. Eng. Uri Doman , Chairman of the Israeli Committee of Illuminating Engineering – CIE Israel	16:00
Session I Light and Lighting from East to West Chair: Ian Rubin , Signify	
Health and Wellbeing Workplaces Emeritus Prof. Derek Clements Croome , University of Reading, UK	16:10
How to Judge Applied Lighting Research, and how to do it well Dr. Jennifer Veitch , National Research Council, Vice-President Technical, CIE, Canada	16:35
Indoor Lighting Design Perspectives for the Post Pandemic Era New challenges in Architects, Engineers and Lighting Designers Education Prof. Paulo Sergio Scarazzato , University of Sao Paulo, Brazil	17:00
The Lighting Design Objectives (LIDOs) Procedure Dr. Christopher Cuttle , Independent Researcher, New Zealand	17:25
End of session	17:50

Wednesday, 17 March 2021 - (Israeli Time)	
Registration and connection to the conference	15:45
Session II Irradiation and Corona Chair: Jonathan Hauser , Technolite	
Germicidal Ultraviolet Irradiation – UVGI: Uses in COVID-19 Eng. Kamal Sethia , Chairman of the Indian Society of Lighting Engineers	16:00
When COVID-19 Moves Dining Outside - A Recipe for Outdoor Restaurant Lighting Eng. Lisa Reed , PE, Lighting Consultant, St. Louis, USA	16:25
Disinfection by UVC LEDs: a Line of Defense Mechanism to Contain Pandemics Prof. Hadas Mamane , Tel Aviv University	16:50
LED based UVGI - using UV-C LED technology for surface and air disinfections Dr. Harald Schöbel , MCI Entrepreneurial School, Austria	17:15
Interactive Panel UVC Radiation and Coronavirus Moderator: Prof. Simon Litsyn , Tel Aviv University With the participation of lecturers and in addition: Dr. Eng. Uri Doman , Chairman of CIE Israel, Dr. Tamar Berman , Israeli Ministry of Health, Avi Menashe , Chairman of Israeli HVAC Society at SEEEI, Dr. Shay Reicher* , Israeli Ministry of Health	17:40
End of session	18:20
