

CIE WORKSHOP ON CALCULATION AND MEASUREMENT OF OBTRUSIVE LIGHT

Ostrava, Czech Republic
November 12-13, 2020

CONSTRAINTS DUE TO COVID-19

Situation with spread of the COVID-19 is continuously monitored by the organizers. Safety is always the highest priority for us.

It can be hoped that in mid-November the pandemic measures will no longer be in effect. Nevertheless, if the situation does not allow to hold the event at the scheduled time and place, including attendance of the majority of registered participants, then alternative plan of an online workshop is under consideration.

We would like to assure participants that by registering for the event, cancellation will be possible if the form of the event is changed.

The final decision on the event arrangements will be taken by September 30, 2020.

Please note, that the organizers take no liability for cancellation of flights, accommodation etc. in consequence of any predictable or unpredictable reasons leading to inability of participants to attend the workshop.
