

Invitation to the 5th CIE Expert Symposium on Colour and Visual Appearance
Hong Kong, April 20 - 25, 2020

Dear Colleagues,

We are pleased to invite you to participate in the 5th CIE Expert Symposium on Colour and Visual Appearance in Hong Kong, April 20 - 25, 2020. CIE Hong Kong has had a long history as a National Committee of the CIE and is pleased to be hosting the next in this successful series of symposia.

Hong Kong with its iconic skyline, legendary cuisine, and lush, protected nature where rare birds and colourful traditions thrive, is an ideal backdrop for this CIE event. Situated on the southeast coast of China, Hong Kong's strategic location on the Pearl River Delta and South China Sea has made it one of the world's most thriving and cosmopolitan cities. The excellent local public transport system, the easy access to Hong Kong via railway or air, and different classes of hotels allow Hong Kong to be an excellent place to host international events and conferences. In addition, CIE Hong Kong holds an international lighting symposium every two years, which provided us great experience in hosting conferences.

This two day symposium will be accompanied by workshops and annual meetings of CIE Divisions 1 and 2, and related Technical Committees. The event will be held at the Hong Kong Polytechnic University Hotel Icon and classrooms, which are located at the centre of Kowloon. The founding Head of the Building Services Engineering Department, Dr. A. M. Marsden, was President of the CIE from 1985 to 1987.

We are confident that Hong Kong's attractions, its multiculturalism, and excellent infrastructure will provide an enjoyable and valuable complement to this CIE event.

We look forward to welcoming you to this event.

Yours sincerely,

Ir Ken Lo
Chairman
CIE (Hong Kong)

Wei Minchen
Chair LOC

Youngshin Kwak
Division 1 Director

Tony Bergen
Division 2 Director

Pochieh Hung
Division 8 Director
