### Abstract

Write a short summary (150 words maximum) on the contents of your paper.

*Keywords:* e.g. Photometry, Colour Rendering, ...

### 1 Section 1

This and the following sections and sub-sections shall serve as an example how to structure a paper.

### 2 Section 2

Section 2 is, as an example, subdivided in several subsections.

#### 2.1 Section 2.1

Example for a figure:

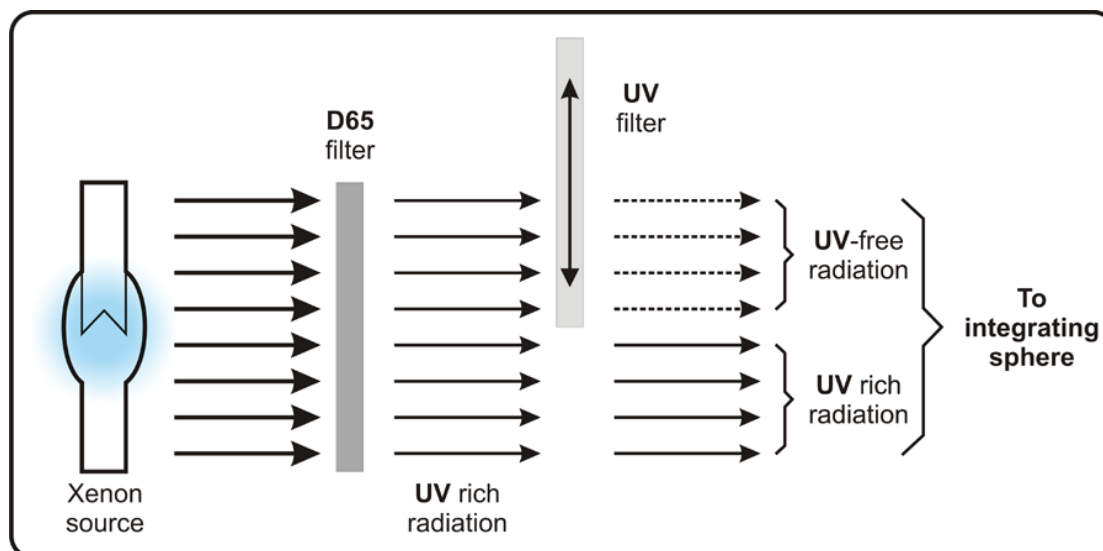

Figure 1 – Caption of Figure 1

#### 2.2 Section 2.2

Example for a table:

---

\* The author names should have the following style: family name, initial(s) of the first name(s), e.g. Smith, M.D.

## References

For citations in the text please use Harvard style, i.e. state the first author or organization and the year of publication in brackets.

Minimum requirements for references:

*For an article:* Author's family name (capital letters), initials(s) of the first name(s). Year of publication. Title of the article. Name of the journal (*italic*), volume (and issue) number, page numbers.

Example:

ADRIAN, W. 1989. Visibility of Targets: Model for Calculation. *Lighting Res. Technol.*, 21, 181-188.

*For a book:* Author's family name (capital letters), initials(s) of the first name(s). Year of publication. Title of the book (*italic*) (Page numbers if necessary). City of publication: Name of the publisher (if known).

Example:

BOYCE, P.R. 2003. *Human Factors in Lighting, 2nd Ed.* New York: Taylor and Francis.

*For an official publication of an organization:* Initials of the organization. Year of publication Title of the publication (*italic*). City of publication: Name of the publisher (if known).

Example:

CIE 2010. CIE 191:2010. *Recommended System for Mesopic Photometry Based on Visual Performance.* Vienna: CIE.
